CardScan Executive Business Card Reader

With the business card scanner it is possible to comfortably seize the business cards of your customers in the office or on the exhibition booth. Simply connect the business card scanner to your PC or laptop via USB and by the CardScan software you can administrate your data comfortably. CardScan exports the seized data into all usual file formats. You can acquire the CardScan Executive business card scanner also after the fair. The rental is then taken into account onto the purchase price.

We order _____ CardScan Executive for rent 75,00 Euro plus VAT

Deposit: 299,00 Euro plus VAT. The return of the complete and undamaged scanner has to be done within 10 days after the trade fair. The difference of the amount paid on delivery will be credited by the CardScan Expo Partner within 10 days after returning the product.

CardScan Lead Qualifier

Use the CardScan Lead Qualifier to process business cards and qualitative information right at the fairs, conferences, seminars and wherever future transactions are expected.

Please select the product language: __ German __ English __ French __ Spanish
