

New Regulations for ITB Berlin

Submission of stand designs

We kindly ask you to meet the deadline for submission of building plans: 15 December. All plans and details (static) of those constructions subject to mandatory inspections, such as two-storey structures or platforms, must be turned in by that date. If an exhibitor does not meet this deadline the stand construction and final acceptance of construction work, can not be guaranteed.

Construction heights

(Please refer to Technical Guidelines 4.3)

The maximum permitted height of any structure, including the upper edge of suspension and fascias, for stand areas up to 50 sq. m. is + 5.00m, and + 6.00 m for stand areas 50 sq. m. to 200 sq. m. in all halls (see below for exceptions). Approval may be given for higher structures in individual cases, for exhibitors renting an entire hall or in the case of rental areas bigger than 200 sq. m.

Exceptions:

For exhibitors in halls 8.1, 10.1 and 11.1, there is a binding height restriction of 3.60 m for all structures. A height restriction of 4.00 m also applies in areas of halls 14.1 and 15.1. In halls 1.1, 2.1, 3.1 and 4.1 the construction height is restricted to 5.50 m, in some cases even to 5.00 m.

Any part of a stand above + 2.50 m, directly bordering an adjacent stand, must have a neutral, smooth white finish, without any advertising.

Calculation for a two-storey stand

Planning the budget for next year's ITB Berlin, please keep in mind that the mode of calculation for the pricing of two storey stand structures has changed in accordance with the terms of AUMA (Ausstellungs- und Messe-Ausschuss der Deutschen Wirtschaft e.v.)

The costs of the upper storey area will now be calculated according to the actual area used for structures, irrespective of the total stand size.

A charge of EUR 46.00 per upper-storey square meter plus AUMA fee of EUR 0.60 + VAT will be invoiced.

The calculation of supplementary charges for stands with more than one side open (corner, peninsula, island stand) remains unchanged. The surcharges will be calculated for areas up to 100 sq. m. There is no supplementary charge on stands larger than 400 sq. m.
