

LIST OF PRODUCTS

Code No.

1.0 Procurement of water

- 1.1 Drilling equipment
- 1.2 Equipment for spring catchments
- 1.3 Well monitoring and inspection
(e. g. use of TV - cameras)
- 1.4 Filter pipes and equipment for boring and ground
water measuring points
- 1.5 Geophysical devices for water reclamation
- 1.6 Renewal agents and systems

2.0 Water and wastewater treatment

- 2.1 Chemical treatment
- 2.2 Physical treatment
- 2.3 Disinfection / deodorisation
- 2.4 UV radiation plants
- 2.5 Ozone plants
- 2.6 Thermal sewage treatment
- 2.7 Sludge treatment
- 2.8 Sludge stabilisation
- 2.9 Sludge dewatering
- 2.10 Sludge drying

3.0 Water distribution and wastewater discharge

- 3.1 Pipe materials for piping of the water supply
(e. g. ductile cast iron, plastic, prestressed
concrete, steel)

4.0 Measuring, regulating and analysis technology

- 4.1 Measuring apparatus
- 4.2 Telecommunications and remote control
equipment
- 4.3 Devices for measuring the level of water and
quantity of water
- 4.4 Regulating and control equipment
- 4.5 Laboratory equipment

Code No.

5.0 Valves, pumps, suction systems, driving apparatus technology and compactors

- 5.1 Valves
- 5.2 Pumps
- 5.3 Sewage suction systems
- 5.4 Electric motors
- 5.5 Compactors
- 5.6 Compressors

6.0 Water pollution control / groundwater control / soil conservation

7.0 Science / research / technology transfer

- 7.1 Research companies
- 7.2 Utility companies
- 7.3 Publications
- 7.4 Associations and institutes

8.0 Information and communication technology

- 8.1 Data acquisition
- 8.2 Data registration
- 8.3 Data transfer
- 8.4 Software for data transfer, data assessment, data
accounting

9.0 Miscellaneous

- 9.1 Services
- 9.2 Engineering services / analysis
- 9.3 Laboratory services / analysis
- 9.4 Miscellaneous advisory services
