

## **WATER SOFIA 2008 PRESENTS ESTEEMED COMPANIES IN THE WATER SECTOR**

The second edition of the International Specialised Exhibition WATER SOFIA 2008 is held from 27<sup>th</sup> to 30<sup>th</sup> of May at Inter Expo and Congress Center – Sofia.

Organisers of the exhibition are Berlin Messe, representative of the prestigious exhibition WASSER BERLIN and Bulgarreklama Agency.

The event was officially opened by the Minister of Economy and Energy of the Republic of Bulgaria – Mr. Petar Dimitrov.

A welcoming speech to the participants extended the Ambassador of the Federal Republic of Germany in Bulgaria His Excellency Mihael Gaier.

On an area of 2500 sq. m. and 80 stands 130 exhibitors and subexhibitors from Bulgaria, Germany, United Kingdom, Italy, the Netherlands, Poland, Czech Republic, Romania, Belgium, Portugal and other countries present their products. The Bulgarian exhibitors are 51 while the new participants in WATER SOFIA 2008 are 48.

The exhibition presents systems and devices for maintenance, control and purification of water basins, prevention from water floods and river overflows, water and wastewater equipment. Demonstrated are new and efficient technologies for water extraction, treatment of drinking and waste waters, water supply, etc. as well as measuring devices for analyses of water quality.

The generation of less wastewaters and the growing interest into the development of treatment plants in Bulgaria make the professionals to follow the new technologies' development. They can find solutions for optimization of extraction, processing and consumption of drinking, industrial, circulating and waste waters. Installations for softening and desalination of waters and control of liquid wastes will attract the interest of professionals.

Among the exhibits are wastewater treatment plant Pipal, a system for sea water treatment transforming it into drinking water - REVERSE OSMOSIS, VFL technology from new generation for biological treatment of waste water without chemical components, Aqua Clean® CAP4 treatment plant, biomembrane reactor GE INFRA WATER, etc.

## International Conference WATER SECTOR IN BULGARIA – STATUS AND PERSPECTIVES

The attending programme of the second edition of WATER SOFIA includes the International Conference WATER SECTOR IN BULGARIA – STATUS AND PERSPECTIVES. Organisers of the prestigious forum are Berlin Messe, Bulgarian Water Association and Bulgarreklama Agency. Among the participants of the conference are representatives from Bulgaria, Germany, Czech Republic, Austria, etc.

On 28<sup>th</sup> and 29<sup>th</sup> of May will be discussed the perspectives for renovation of the national legislation and financing of the water sector. The problems in water resources management and infrastructure as well as the development of water and waste water systems will be also emphasized. Modern materials, machines and construction technologies with application in the water sector will be also discussed.
